A Ministry of Assemblies of God World Missions

Bill Moore, Director of ATE

We, at Africa Tabernacle Evangelism, strongly believe in the power of the local church in the world today. We believe that the local church is an instrument of God in reaching out to the community. We especially believe in the local church in Africa!

That is why we are working to establish *a healthy church within walking distance of every African*. We know that this might seem like an insurmountable task, but we also know that, with God's help and your partnership, we can make it happen.

Together, we have already built approximately 3600 structures, and we are not stopping there. We will keep building until we reach our goal because we believe that every African deserves a local church.

We are asking you to join us in this mission. Let's make a difference in the lives of countless people by providing them with a place of worship and creating a sanctuary where they can connect with their community and their faith. We can do something beyond our abilities to be the change we want to see in Africa. Together, we can make a lasting impact by planting *a healthy church within walking distance of every African!*

KAPIRI MPOSHI, ZAMBIA

Missionaries Tony and Kerri Ballard in Zambia have completed the construction of the Kapiri Mposhi tabernacle with the help of local church volunteers. Despite challenging weather, they were able to put on the roof between rain showers and finish just before it started again. The new tabernacle will provide a space for worship and spiritual growth for many individuals in the community. We commend the dedication of the Ballard team and the local volunteers who made this project a reality. We encourage continued support for the efforts of missionaries like Tony and Kerri Ballard, who are making a real difference in the lives of many. Thank you for your support, and we will share more good news in the future.

UPDATE FROM UGANDA from Missionaries Derek and Rebecca van der Merwe

We are excited to share some great news with you about a new church building in Rwentinga, Uganda. Just in time for Easter Service, the Rwentinga AG church structure has been completed and is now open for worship. This achievement has been made possible through the generosity of individuals and churches who have been contributing to the training of pastors and the planting of churches in Uganda. We are grateful for their kind donations and support, which have made a huge difference in the lives of people in this community. The new church structure is a great addition to Rwentinga, providing a place of worship and spiritual growth for the people in the community. It is a testament to the power of collective efforts towards a common goal, and we believe that it will positively impact the lives of many. As we celebrate this significant milestone, we want to encourage everyone to continue supporting the growth and development of churches in Uganda. Doing so can help bring hope and transformation to many communities and create a brighter future for generations to come.

YES! I want to help provide tabernacles for Africa.
